

School District Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan.
An IPM plan is required if a school district uses pesticides¹.

District IPM Coordinator	IPM Coordinator's Phone Number

IPM statement

It is the goal of P.C.O.E. to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: *(Example: Focus on long-term pest prevention)*

Focus on long term prevention and reduced risk applications through extensive exclusion and preferential use of alternative pesticides.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

Name and/or Title	Role in IPM program
Gib Benthin	IPM Coordinator
Andy Steed	Neighborly Pest Management, inc., Pest Technician
Jim Steed	Neighborly Pest Management, Inc., President
Sean Bradley	Neighborly Pest Management, Inc., General Manager
Daniel Williams	Neighborly Pest Management, Inc., Pest Technician

Pest management contracting

Pest management services are contracted to a licensed pest control business.

Pest Control Business name(s): Neighborly Pest Management, Inc.

Prior to entering into a contract, the school district has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.

Pest identification, monitoring and inspection

Pest Identification is done by: Neighborly Pest Management, Inc.

(Example: College/University staff, Pest Control Business, etc.)

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by Neighborly Pest Management, Inc. and results are communicated to the IPM Coordinator.

(Example: District staff title, e.g. Maintenance staff)

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include:

(Example: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.)

Regular inspections of kitchens and other food preparation/storage sites. Positive identification of target pest before the application of a reduced risk pesticide. Engagement in efforts to provide non-chemical measures, such as exclusion, increased sanitation, and landscape modifications.

Pests and non-chemical management practices

This school district has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

Pest	Remove food	Fix leaks	Seal cracks	Install barriers	Physical removal	Traps	Manage irrigation	Other
Ants	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Monitor Sanitation
Roaches	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Monitor Sanitation
Rodents	<input checked="" type="checkbox"/>	Monitor Sanitation						
Fleas	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Exclude rodents/feral cats
Wasps	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	Eliminate standing water
Spiders	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	Landscape Modification

Chemical pest management practices

If non-chemical methods are ineffective, the school district will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This school district expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by school district staff or licensed pest control businesses.):

List Pesticides Here SEE LIST BELOW

Healthy Schools Act

This school district complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 – 17613, 48980.3; Food & Agricultural Code Sections 13180 – 13188)

Training

Every year school district employees who make pesticide applications receive the following training prior to pesticide use:

- Pesticide specific safety training (Title 3 California Code of Regulations 6724)
- School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports

Reports of all pesticides applied by school district staff during the calendar year, except pesticides exempt¹ from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification

This school district has made this IPM plan publicly available by the following methods (check at least one):

- This IPM plan can be found online at the following web address: <https://www.placercoe.k12.ca.us/departments/adminservices/facilities/Pages/pestmanagement.aspx>
- This IPM plan is sent out to all parents, guardians and staff annually.

Review

This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.

Date of next review: 8/30/24

I acknowledge that I have reviewed this school district's IPM Plan and it is true and correct.

Signature: Gib Benthin

Date: 1/31/24

¹ These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)

ANNUAL NOTIFICATION OF PLANNED PESTICIDE USE

Dear Parent, Guardian, or Staff Member:

The Healthy Schools Act (HSA) of 2000 was signed into law in September 2000 and requires that all California school districts provide parents and guardians of students with annual written notification of expected pesticide use on school sites. This notification identifies the active ingredient(s) in each pesticide product and includes the internet address to the Department of Pesticide Regulation (DPR) for further information on the pesticides and their alternatives. The Placer County Office of Education posts this notification every year on the Maintenance and Facilities website: <https://www.placercoe.org/Pages/PCOE/Departments/Facilities-Planning-and-Construction/Pest-Management-Plan.aspx>.

Below are the pesticides PCOE expects to apply during the school year.

2024-2025 PESTICIDE/ HERBICIDE USE LIST

Product Name	Active Ingredient	EPA number
Quick Pro	Glyphosate + Diquat	524-535
Round-Up Pro Max	Glyphosate	524-579
Dimension	Dithiopyr	62719-542
Speed Zone Southern 2,4-D	2-Ethylhexyl Ester	2217-833
Turflon	Ester Triclopyr	62719-258
Atrimec	Dikegulac-Sodium	2217-776
Termidor SC	Fipronil	7969-210
LADA 2F	Imidacloprid	83100-6
565 Plus XLO	Pyrethrins	499-290
Advion Cockroach Gel Bait	Indoxacarb	100-1484
Advion Ant Gel Bait	Indoxacarb	100-1498
Gentrol IGR Concentrate	Hydroprene	2724-351
Delta Dust	Deltamethrin	432-772
Maxforce Ant Gel Bait	Fipronil	432-1264
Maxforce Ant Bait Stations	Fipronil	432-1256
Maxforce Roach Gel Bait	Fipronil	432-1259
Maxforce Roach Bait Stations	Fipronil	432-1257

Precore IGR Concentrate	Methoprene	2724-352
Premise Foam	Imidacloprid	432-1391
Shockwave	Pyrethrins	1021-1810
Talstar P	Bifenthrin	279-3206
Temprid Ready Spray	Imidacloprid, Cyfluthrin	432-1527
Vikane	Sulfuryl Fluoride	62719-4
Advion Insect Granule Bait	Indoxacarb	100-1483
Zenprox Aerosol	Pyrethrins, Tetramethrin, Etofenprox	2724-804
Barricor SP	Deltamethrin	432-1597
Alpine WSG	Dinotefuran	499-561
Gentrol Aerosol	(S)-Hydroprene	2724-484

See more information regarding these pesticides and pesticide use reduction at the Department of Pesticide Regulation's Web site at <http://www.cdpr.ca.gov>

The individual pesticide application notifications request form can be found on the PCOE IPM web site, please complete the individual pesticide application notifications form and return it to:
