### Special Education Local Plan Area Funding Distribution

Describe the basic premise of the SELPA Allocation Plan for distributing dollars as closely as possible to how they are earned.

The allocation plan was developed by the local school districts in order to provide a broad continuum of support across the counties. The purpose was to make sure all students have equal access to the continuum despite their disability and their address. SELPA allocations to LEAs are based upon formulas which take into account the Special Education student counts and each LEA's ADA. The formula allocates 66% of funding with a weighted plan to support students with more severe disabilities. The plan distributes 34% according to district pupil counts. Prior to distribution, small LEAs receive a small allocation of $629 for the first 100 pupils in order to support their capacity to serve students with special needs.

Describe how the SELPA distributes IDEA revenues to the LEAs, including the models used to provide services to member LEAs:

IDEA is similarly allocated based upon student counts and/or ADA - depending on the methodology deemed most appropriate.
